Meet - Recess - Meet Again Is State Legislature Technique

Forced into More Recesses
than a kindergarten class, the
state legislature took another
temporary leave from Lansing on
July 18 after scheduling an Aug. 6
date to reconvene.

The legislative technique of
"meet-recess-meet again" is the
answer given to Governor Wil-
liams for his action in calling back
the members for special sessions.
Last year he called a second special
session when the legislature
adjourned without acting to his
satisfaction. But the governor is
powerless to end the recess.

Present deadlock of...
WALKERS
FURNITURE
CRAWFORD

the governor - legislature feud
won't be broken soon, according
to Capitol observers.

A new unemployment compensa-
tion plan is the core of this dis-
pute.

Republicans charge that the
governor is trying to capitalize
on Michigan's economic situation
as political fodder. They place
small stock in his "gloom and
doom" tactics. Leaders hold that
early summer decreases in em-
ployment were temporary; that
the state is not heading towards
"disaster."

Both sides agree that the legis-
lature is doing little. The Dem-
ocrats charge that the Republi-
cans refuse to take action in the
unemployment "emergency."

Republicans on the other hand
see too much smoke and no legiti-
mate plan being presented by
Governor Williams. But they pro-
tect the situation by standing
ready to meet any emergency.
They should assume larger proportions.

Free polio vaccine will be avail-
able for a third shot to all chil-
dren from one to 14, because of
the only bill approved by the leg-
islature during its July meeting.
This will cost about \$831,000.

Two other proposals, including
the final appropriations for the
new medium security at Loma
and a bill to give the driving li-
censing department power to keep
bad drivers off the highway, were
not approved by members at the
special session.

Construction workers refuse to
continue building the new Loma
prison unless the state agrees
that prisoners will not be used on
any portion of the job.

Republican leaders feel the situ-
ation is incongruous in that
union which often receive close
cooperation from Governor Wil-
liams are now delaying his prison
program.

The "bad-drivers" bill, legaliz-
ing license denials because of poor
driving record, received a tempo-
rary setback when some Demo-
cratic Senators attacked it. They
claim it grants new powers which
would be too broad. When the
arguments ended the bill was sent
back to the Highway Committee.

Opposing groups met after the
session and agreed on a change in
the bill which would deny a li-
cense to anyone convicted of six
moving violations in the preced-
ing 24 months. On this basis, leg-
islative leaders say passage of
the proposal seems assured at the
August meeting.

Michigan's Speed Law Is Not
as simple as a limit of 65 miles
per hour by day; 55 by night. In
fact, drivers have been arrested
legally when driving within these
ranges.

The State Bar of Michigan be-
came so concerned over the lack
of general misunderstanding con-
cerning speed laws, took pains to
warn drivers of this exception:
a vehicle pulling a trailer is li-
censed to travel at 50 miles per hour,
regardless of posted limits.

Laws covering cars with trail-
ers were defined prior to the new
speed law, according to State Po-
lice Commissioner Joseph A.
Childs. They provide that any
vehicle hauling a trailer of any
weight under 5,000 pounds is sub-
ject to the 50 miles per hour limit,
while trailers over 5,000 pounds
weight must observe a 45 miles
per hour maximum speed.

Michigan residents should un-
derstand that in many local and
resort stringent enforcement of
the above limits is often observed,
the State Bar comments.

Irresponsible Political Candi-
dates who fan racial and religious
prejudices to gather votes will re-
ceive no help from their respec-
tive political parties.

A "Fair Election Practices Com-
mittee" composed of noted Mich-
igan educators, clergy represent-
ing major religious views and
members selected from minority
racial groups, is being reactivated
by Governor Williams as a
"watchdog" over the 1956 cam-
paign.

Wholeheartedly endorsed by Re-
publican Chairman John Feikens
and Democratic Chairman Neil
Staebler, the committee relies en-
tirely on its ability to rally public
opinion in curbing anonymous at-
tacks, and racial and religious
bigotry.

First initiated four years ago,
the committee served in the last
two elections with good results,
says Joffe, secretary of the
board. All results in investi-

gations are made public in re-
ports throwing the spotlight on
offenders.

Fluoridation Of Water To Pre-
vent tooth decay received a big
boost when the U. S. Public
Health Service reported favor-
ably on a 10 year study in Grand
Rapids.

The scientific evidence is con-
clusive, the report says, "that
water fluoridation is an effective
public procedure for producing a
substantial reduction in the in-
cidence of dental cavities."

Results in the study, which be-
gan in 1945, show a reduction of
54 per cent in cavities in the baby
or first teeth; a reduced cavity
rate of about 60 per cent among
children born since the experi-
ment began; and no undesirable
coloring of the teeth because of
contact with the fluoride.

The survey did not as yet as-
certain the effects on the teeth of
adults. In the past it was com-
monly held that fluoridation
does nothing to help adult teeth,
but the report states that prelimi-
nary findings indicate that some
beneficial effect may be gained
by older age groups.

The American Dental Associa-
tion endorses the fluoridation of
water, which is still a controver-
sial issue in many communities.

en You Buy Gasoline

On July 1, the price of gasoline went up. The reason was a one-cent-a-gallon increase in the federal tax, raising it from two to three cents, as provided in the new highway construction bill.

A sales executive of a leading oil company had nothing to say about this development. He said that good highways are highly desirable. But we do feel that motorists should realize the new tax rate on gasoline is the highest in the country for an essential commodity.

The total gasoline tax paid by motorists has now risen to 40 percent of the retail price of gasoline. The average national average state and federal taxes have climbed to 8.8 cents on every gallon of gasoline. The average for instance, when motorists buy a 15 cent tankful of gasoline... about \$1.35 of what they pay is taxes for highways, not for the supplier's product.

There has been, and will continue to be, much discussion as to how the huge federal road program should be financed. There are many who believe the higher gas tax is the right way. But, whatever you believe, the thing is sure: that tax is entirely beyond the control of the oil industry and the industry has no choice but to add it to the price of your gas.

u Can't Clip a TV Program!

Dorothy Kilgallen, the columnist and television personality, has something pleasant to say about newspapers as reading matter.

"You can read on a train crossing the desert or on a plane at 17,000 feet above the Atlantic—no static, no lag, no blips," says Miss Kilgallen. "You can read a tabloid or while hanging onto a pole in a crowded car. You can read as much or as little as you want, as fast or as slow as you want."

"And if you read something you like, you can tear it out and save it to read again someday. I enjoy the newspaper and television, and I'm gainfully employed by both."

4th. Mr. Cason has completed
contracts for the erection of these
buildings, and construction of
same, will begin in the next few
days.

Ayes: Roberts, Simpson, Cook,
Giegling and Gothro.

Nays: None.

Moved by Gothro and support-
ed by Giegling that the following
resolution be adopted as follows:

"WHEREAS, Grover Cason of
Grayling, Michigan, has petitioned
the Council of said City to vacate
an extension of Shellenburger
Street as the same is laid out
over and across Lots 5, 6 and 14
of Block 3 of Goodale's Addition
to said City, the reasons therefor
stated in said petition being that
said extension is not now and
never has been used as a public
street or alley, that petitioner de-
sires to erect and has entered into
a certain contract for the erection
of two commercial cinder block
buildings on Lots 4 and 5 of said
Block 3, a part of which would
extend over said extension, and
that the erection of said buildings
would be a benefit to said City,

and

WHEREAS, after due consider-
ation, the Council deems it advis-
able and for the best interests of
said City to vacate and abandon
said extension, NOW THERE-
FORE,

IT IS HEREBY RESOLVED,
That Tuesday, August 14, 1956, at
7:30 o'clock P. M., at the City Hall
in said City, there shall be set as
the time and place for hearing said
petition, and that public notice
thereof shall be given by publica-
tion of a copy of this resolution in
the Crawford Avalanche once in
each week for four weeks before
said date of hearing, and that ob-
jections to said vacation may be
made in writing to the Clerk of
said City prior to said hearing, and
may be made to the Council at the
time of said hearing."

Ayes: Roberts, Cook, Simpson,
Giegling and Gothro.

Nays: None.

Moved by Giegling and support-
ed by Cook that the petition of
Grover Cason for closing of
Block 3, a part of which would
extend over said extension, and
that the erection of said buildings
would be a benefit to said City,

be brought to Grayling by the
addition of two modern
and convenient commercial build-
ings, and from the viewpoint of
the general increase to the beauty
of the business district of the City
of Grayling, by the erection of
such buildings. No doubt the
erection of these buildings will
give to other business persons and
firms an added incentive to invest
in the business future of the City
of Grayling.

WASHINGTON AND
"SMALL BUSINESS"

By C. WILSON HARDER

An interesting event is taking
place in Chicago.

Two food wholesalers and 23
retail grocers have filed a \$3,000-
000 suit against three large food
packers and W. E. P. and Wom-
an's Day magazine.

Outcome of
this suit could
have far reach-
ing effects.

Woman's
Day is a maga-
zine which, it
is charged, is a
wholly owned
subsidiary of
A. & P. The
magazine is
sold only through
A. & P. stores
at a price of 7 cents per copy.

Complaint charges the three
large food packers spend huge
sums in Woman's Day, thus in
effect giving substantial prefer-
ential treatment to A. & P., not
given independent customers.

In other words, it is in-
ferred these huge expenditures in
a magazine owned by A. & P. is
a form of a special discount.

This case should develop inter-
esting data on whether or not
attempts are being made to di-
vert legitimate advertising pur-
suits into other channels.

Advertising media, such as
national magazines, or news-
papers, are mediums of general
circulation, sold at newsstand
and delivered to subscribers.

This newspaper is all other
independent media is open to
all legitimate advertisers. A food
packer advertising in this news-
paper is able to reach customers
of all the grocery stores in the
area of circulation.

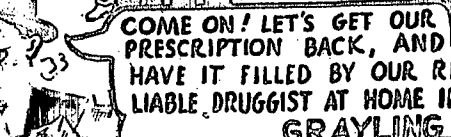

Yet, when a packer buys space
in a publication sold only through
A. & P. stores, the packer is given
the impression, directly or
indirectly, of being quite
abashed when confronted with
amassed wealth. At least, it ap-
pears quite odd that F&C has not
made a study of this challenging,
provocative question of huge ad-
vertising expenditures in maga-
zines sold only through chain
food stores.

Auto Costs Up \$13,500 For Crawford County Motorists

(Special to the Avalanche)

NEW YORK, July 28—Passenger car owners in Crawford County have begun to pay their share of the \$50 billion road-building program recently set in motion.

By next July, when the fiscal year ends, they will have paid \$13,900 in increased taxes. The figure is based on an estimate by the U. S. Chamber of Commerce. It is the product of the number of cars in operation in Crawford County and the average tax rise per car.

Motorists will pay an additional \$80 a year, on the average, into the Chamber of Commerce. The tax will come from an added Federal tax of one cent per gallon of gas. Other levies, such as the 60 percent increase in tire taxes, will make up the rest.

The auto owner's burden may be enlarged still further at a later time as State and local governments get into the act. They will have added costs, too, due to the highway development, which will be passed on to the motorists.

Truckers will also help pay for the new roads. In addition to the gas levy, they will be paying more for equipment, including tires, as well as a new tax on

Harbor Beach, and Mr. and Mrs. Albert May and two children, Carol and Bruce, of Port Huron. that the Guard is necessary to the safety of this nation, this state, and even Grayling itself. The boys are not professional soldiers, but citizen-soldiers on a training mission. To many of them it's their annual "vacation". Every one is a Michigan resident, a potential tourist or resorter, who, if he likes what he sees here, will come back. And the soldiers should not have to be reminded that Grayling is not an enemy city to be occupied, but is rather a Michigan city peopled with the same sort of people as in their own home town.

To the Guard: We like our town; it's our home. And most of us sincerely welcome you and your families. We hope that you will like your stay here and that you will come to visit us again and often. Our "home" is a bit crowded when you are here, but we'll go along with a little bit of patience and understanding... on your part and ours.

BOWLING DOPE

Scotch double winners this week were Marie Quinn and Otto Peterson first with Louise Hatfield and Bud SanCristo trailing by two pins, 476 to 474, that's real close. There was a lot of bowling last week but the high rollers just didn't turn out, either they have gone home or else were rained in. Don't forget the bowling meeting at the alley Friday night, August 10th at 8 p. m., team captains or sponsors, or a representative from each team should be present in order that we can get a line up and see just who is going to have teams, there might be a couple dropping out and some new ones coming in, that's what we want to find out as early as possible. Want to start bowling early part of Sept. in order to get through early next spring.

We also have to elect our officers for the City association and each league, this all takes time and has to be done before anything can be done, for this reason it is hoped we will have a representative from each team present, there will have to be a majority of the teams represented in order to make it official. So here's your chance to have a say on who is going to be officers for the coming year. After they are elected it's too late to kick about them or who you think should be elected, you don't have to register for this election just be present. It's your league and you have the final say but now is the time to say it, not later.

Only \$64⁹⁵

On \$3.00 worth of Blue Sunoco, test cars were driven till they ran dry. They couldn't get back on \$3.00 worth of any other premium gasoline tested. They never got home! Blue Sunoco averaged 23.0 miles farther!

These tests were conducted by the AAA in 6 cities under normal city-country driving conditions—using typical drivers in late model high-compression cars whose manufacturers recommend a premium gasoline.

Results of tests confirm, once again, a fact that is already well-known by thousands of users of Blue Sunoco—the fact that Blue Sunoco is America's greatest gasoline value. Why not take advantage of it—get more miles for your gasoline dollar? Stop in at your neighborhood Sunoco dealer today, and try a tankful of Blue Sunoco!
